

# **USER GUIDE FOR MAGENTO 2 EXTENSION**

## Avatar

**Version**: 1.0.0

### Avatar

The Avatar module makes customer accounts more fascinating by permitting photos to be uploaded for personalization. Once installing the Avatar extension, the Avatar profile image and uploading tools will be infused on customer account page and customer account edit page. The customer can choose an image file as a profile image when creating a new account. The customer can change their Avatar image by uploading the new image in the account edit page. Customer records will show the Avatar image as a profile photo for every customer which the customers get the Avatar extension. Avatar extension allows the admin to upload, delete and edit the customer Avatar image from the customer edit form from the admin panel.

### 1. Features

The Avatar extension features are listed below,

- Allows admin to either enable/disable the Avatar module.
- Supports only images extensions: jpg, jpeg and png
- Allows maximum image file size as 1MB.
- Allows customers to upload Avatar images as profile photos.
- Allows admin to edit/delete customer Avatar images in admin grid and form.
- It equally beneficial for merchants and customers

## 2. Configuration settings for Avatar
