

# **USER GUIDE FOR MAGENTO 2 EXTENSION**

## **Filter Orders**

**Version: 1.0.0**

## Filter Orders

Filter Order extension allows the Customers to filter the orders based on purchased date and also it will display the entire list of orders that are placed on the selected date. This extension enhances the user experience in My Order page. This extension allows the logged in Customers to filter their orders and check them in an effective manner.

### 1. Features

- Customers can filter their orders with respect to the date of purchase.
- Manage filter orders functionality with admin configuration.
- Improves the user experience of the My Order page.
- Easy access to order with the details.

### 2. Configuration settings for Filter Orders

A simple configuration will activate the Filter orders extension in your website. Below are the path and field details to configure

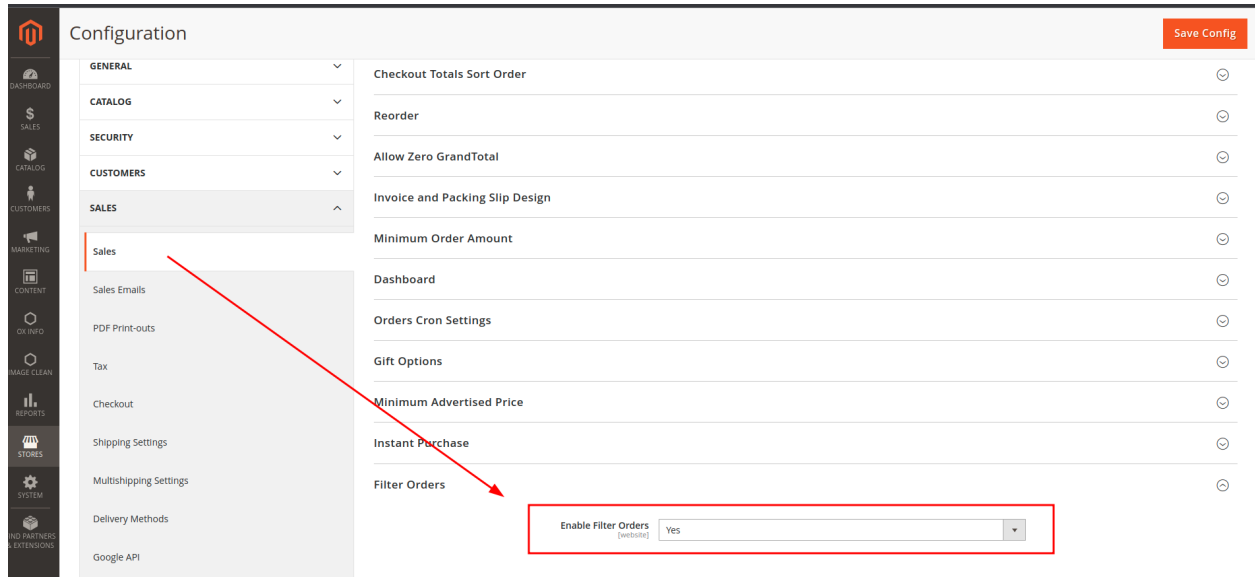

#### Path to configure

Stores -> Configurations -> Sales -> Sales-> Filter Orders

#### General configuration

Enable Filter Orders - Yes/No

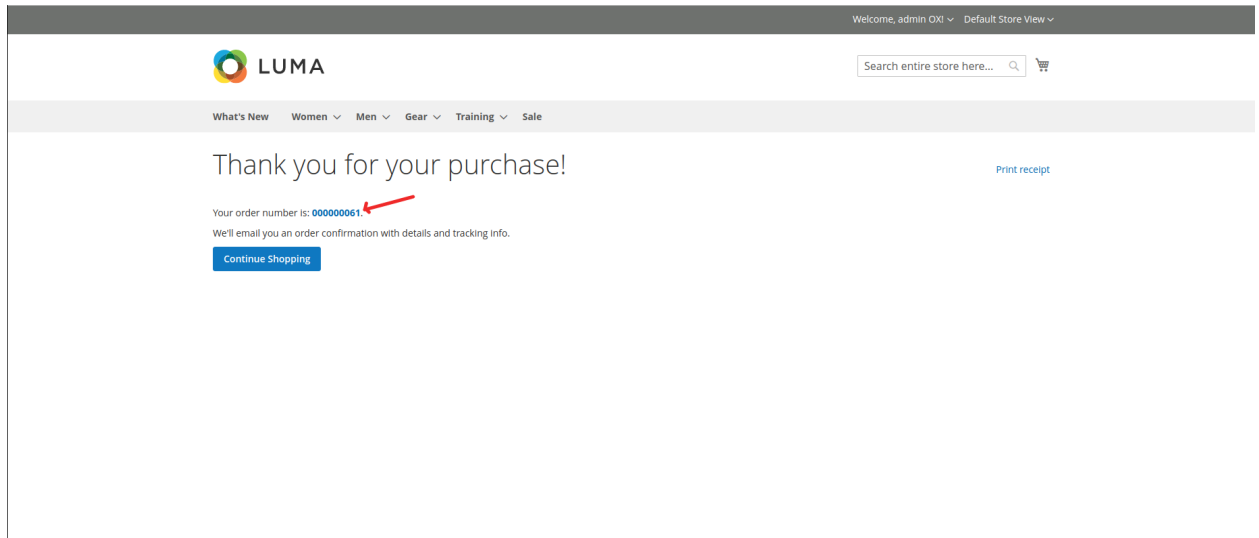

Refer to the screenshot below for reference:

### 3. Frontend View

- Logged in customers can only take the advantage of extension.
- My Account -> My Orders
- My orders page will have all the previous orders and customers can filter it.
- Customers can click on the select dropdown to filter the orders with the purchased date.
- To view the order page customers have to click on the order id.
